Subject:- Deputation of Sm.Padmasundaram, Assistant Surgeon, to visit hospitals and medical centres in the United States of America.

4660

In continuation of this office letter No.242/G.A.D. dated 1-12-48 forwarding a copy of the telegram dated 29-11-48 received from the Indian Embassy in Washington, I am forwarding herewith for the kind perusal of Government a copy of letter No.M492/47/48 dated 26-11-48 received from the First Secretary to the Embassy of India in the U.S.A. regarding the inadequacy of the funds placed at the disposal of Sm.Padmasundaram and requesting me to give this matter personal attention and cable instructions. I solicit immediate orders of Government in the matter.

Yours faithfully,

COMPTROLLER.

-VRM)

Letter No.M.492/47/48 dated 26th November 48 from the First Secretary, Embassy of India in the U.S.A., Washington,D.C., to the Comptroller to the Government of His Highness the Maharaja of Mysore, Bangalore.

With reference to our cable, quoted below, of November 26th,1948 and to your letter No.817 and 818/Books of 1st November stating the allowances sanctioned to Mrs. Padmasundaram, Assistant Surgeon of the State, for her visiting in U.S.A., I write to point out that the allowances are not likely to meet all the requirements of the visit of the Doctor to America.

When this Department was asked to arrange for her visit, it was mentioned by India House that "she had been permitted by the Government of Mysore to proceed to the United States of America for a period of four months for visits to certain hospitals and medical centres where she is to generally acquaint herself with work relating to women and children" and that "she was not coming as a regular student for any one specific center and that the training that is contemplated is by way of finishing up her other wide interests which she has acquired during her stay in the U.K." Her brief stay of four months for discharging the task assigned to her would necessarily involve considerable expenditure on touring to the scattered centers of Gynaecological and Pediatric interest. The fact that she has only one-third of a year for seeing as much as possible of what is of relevant interest, does not mean that with one-third of the usual allowance, she can do the travelling involved. I felt that in fairness to her and the usefulness to the State of her training in this country, it was necessary to bring this to your notice. In the absence of permission to travel freely into the important centers as directed by Dr.O'Brien of the Public Health Department of the U.S.A.--who has been good enough to draw up a tour programs for our visiting doctors -- it would seem that the purpose of thex visit of Dr.Sundaram would be but partially realized.

There is another aspect of her training during these four months that needs to be brought to your attention. There are short courses given by certain Institutions and bodies which are extremely valuable to Doctors from India. Mrs. Sundaram has already taken a course in Clinical Pediatrics at the Cook Country Graduate School of Medicine in Chicago involving a fee of $30.00 and a post-graduate

course in Pediatrics for which a bill of $50.00 has been presented to this Department. As her sanctioned allowances make no mention of possible courses and tuition fees, she has found herself unable to meet these bills out of the amount at her disposal, but as it would be awkward not to honour these bills presented by bodies with whom this Department would have to deal time and again, and as these courses appear valuable for a visiting lady Doctor, I am sanctioning the payment of $80.00 in anticipation of your kind approval.

I should be grateful if you would give this matter your personal attention and cable your instructions. Similarly, I should be grateful if while deputing other officers for brief visits to this country, you would bear in mind the special circumstances which distinguish the visit of these officers from the touring done by students who have two years in which to do the visiting.
